A Unique experience – Akiko from Japan

I studied at Unique for 6 months and it changed my life. The teachers and staff supported my studies and life in New Zealand.

After studying General English I moved to an advanced class and studied English for Academic Purposes. Before leaving NZ I passed the entrance exam for a top design university in Denmark.

Now, I'm in Denmark. I'm working at a design firm in Copenhagen using English and a little Danish after graduating from university. I'll never forget my studies at Unique and the friends I made in NZ.

My older brother and sister both studied at Unique New Zealand so I decided to study there too. I improved my English at Unique and prepared for high school study in New Zealand. At Unique I enjoyed the classes and made friends with other students from all over the world. The staff were always very helpful.

After graduating from Unique I started high school in Auckland. It wasn't difficult for me because I had already studied English at Unique and also learned about life in New Zealand.

I highly recommend Unique New Zealand. It's a great place to study.

A Unique experience – Juliane from Germany

If you are planning to study abroad you should come to Unique New Zealand. It's a really good school with excellent teachers and small classes. I learned so much and had a lot of fun.

My homestay family were so nice and warm-hearted. They became like a second family to me and we are still good friends.
