

## Aromatherapy Course

This is a programme with General English course plus 4 week course aimed to teach international students Aromatherapy industry skills and knowledge which can be applied to worldwide standards. The Practical Aromatherapy Course is in the afternoons (32 hours) study with General English to help improving communication skills (60 hours) in the mornings.

This will be done by exposing the students to:

- Produce blended oil, bath bomb and bath salts
- Chopping the dried flowers for the infused oils
- Produce skin toner
- Produce skin soap
- Produce deodorant room spray
- Produce peppermint & chocolate lip, elbow and heel balms
- Preparation of massage oil

### Student Comment:

“Until the course started I only had an image about Aromatherapy in my mind. As the course progressed, I got to know more and more about the aromas I liked and what positive effects the oils can have. I was actually surprised by how easy it was to make every day products, and it was amazing to make everything exactly as I wanted. I could feel the positive and relaxing effects of the oils as I was making the products.

Talking about Aromatherapy with the other students was really enjoyable too.”
